The 'Longman Science 11-14' series aims to put science into context both historically and in the modern world as well as reinforcing and consolidating learning through questions, summaries and investigation ideas.

Longman Science prepares students in grades 6-12 for success in a standards-based science program with a broad overview of life, earth, and physical science. All activities are specifically geared to students in the early stages of English language acquisition, and help build content knowledge, skills, and learning strategies. Special offer: Take advantage of our special offer: get the Longman Science Student Book and Workbook for only \$44.95. That's 25% off the regular price of these two books combined. Click here for details. Features For beginning to high beginning English language learners. " Getting Started " unit introduces concepts of science, safety, and the scientific method. Reading strategies are explicitly taught and modeled throughout the readings. Science skills, such as using and interpreting visuals, charts, and graphs are taught and recycled throughout each lesson. Unit Review provides additional practice, extension projects, further reading, and a Unit Experiment. Vocabulary building activities and glossaries help students access and build mastery of the content.

This best-selling dictionary is now in its 4th edition. Specifically written for students of language teaching and applied linguistics, it has become an indispensable resource for those engaged in courses in TEFL, TESOL, applied linguistics and introductory courses in general linguistics. Fully revised, this new edition includes over 350 new entries. Previous definitions have been revised or replaced in order to make this the most up-to-date and comprehensive dictionary available. Providing straightforward and accessible explanations of difficult terms and ideas in applied linguistics, this dictionary offers: Nearly 3000 detailed entries, from subject areas such as teaching methodology, curriculum development, sociolinguistics, syntax and phonetics. Clear and accurate definitions which assume no prior knowledge of the subject matter helpful diagrams and tables cross references throughout, linking related subject areas for ease of reference, and helping to broaden students' knowledge The Dictionary of Language Teaching and Applied Linguistics is the definitive resource for students.

Physicist Richard Carlson and biblical scholar Tremper Longman address the long-standing problem of how to relate scientific description of the beginnings of the universe with the biblical creation passages found in Genesis. Experts in their respective fields, these two authors provide a way to resolve seeming conflicting descriptions.

This Answer Book accompanies the Longman Science 11-14 series

NOTE: This edition features the same content as the traditional text in a convenient, three-hole-punched, loose-leaf version. Books a la Carte also offer a great value; this format costs significantly less than a new textbook. Before purchasing, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering

products. NOTE: You are purchasing a standalone product; MyWritingLab(tm) does not come packaged with this content. If you would like to purchase both the physical text and MyWritingLab, search for: 0134175689 / 9780134175683 A Short Guide to Writing About Biology, Books a la Carte Edition Plus MyWritingLab - Access Card Package Package consists of: 0134008316 / 9780134008318 A Short Guide to Writing About Biology, Books a la Carte Edition 0205869203 / 9780205869206 MyWritingLab Generic without Pearson eText - Access Card MyWritingLab should only be purchased when required by an instructor. For courses in Writing Across the Curriculum or Writing About Biology. Developing the tools to effectively write about biology Teaching biology and strong writing skills simultaneously is a challenge, especially when students exhibit a range of abilities. The Ninth Edition of A Short Guide to Writing about Biology provides tools to strengthen student writing and reinforce critical thinking. Written by a prominent biologist, this best-selling guide teaches students to express ideas clearly and concisely. It emphasizes writing as a way of examining, evaluating, and refining ideas: students learn to read critically, study, evaluate and report data, and communicate with clarity. Using a narrative style, the text is its own example of good analytical writing. In this new edition, students learn how to avoid plagiarism (Ch 1 and 3), read and interpret data (Ch 3, 4 and 9), prepare effective Materials and Methods sections in research reports and more (Ch 9), and prepare manuscripts for submission (Ch 9). The text also provides advice on locating useful sources (Ch 2), maintaining laboratory and field notebooks (Ch 9), communicating with different audiences (Ch 6 and 10), and crafting research proposals (Ch 10), poster presentations (Ch 11), and letters of application (Ch 12). Also available with MyWritingLab(tm) This title is also available with MyWritingLab -- an online homework, tutorial, and assessment program that provides engaging experiences for teaching and learning. Flexible and easily customizable, MyWritingLab helps improve students' writing through context-based learning. Whether through self-study or instructor-led learning, MyWritingLab supports and complements course work.
